## PROFILE

I am a dedicated Information Technology student pursuing a Higher National Diploma at the Sri Lanka Institute of Advanced Technological Education (SLIATE). With a strong focus on software quality assurance, software engineering, and project management, I am equipped with the skills to excel in dynamic IT environments. My coursework in web design, machine learning, and business analysis has provided me with a comprehensive understanding of industry practices. I am proficient in software development, database management systems, and system analysis and design. Additionally, I have a solid grasp of fundamental programming principles and user interface design concepts. Eager to leverage my theoretical knowledge in a practical setting, I am seeking an internship opportunity to gain hands-on experience and contribute to innovative projects in the IT industry.

---
